Tips for Parents From Experiential Education & Career Services

Parents

1) Encourage students to volunteer (helps make them well-rounded).  
2) Encourage students to clean up their profile on social media sites (ex: Facebook, MySpace). **Employers check those sites**  
3) Encourage students to participate in mock interviews…practice makes perfect!  
4) Encourage students to stay focused…they have almost finished the first term – reflect on the good things that happen in the term, learn from the “not” so good things and MOVE ON!
